VISHES to call the attention of all that suffer with defective eight, caused by age, sickness, and particularly from glasses injudiciously selected, to his superior Spectacles and Glasses, carefully ground by himself to a true spherical accuracy, and brilliant transparency, suited precisely and beneficially to the wearer, according to the concavity or convexity of the eye. Very numerous are the ill effects caused to the precious organs of sight from the commencement of using glasses in not being precisely suited, by the use of an optometer; and the practice of many years enables him to measure the focal disease of the eyes, and such glasses that are absolutely required will be furnished with precision and satisfaction.

and satisfaction.

J. T. acknowledges the very liberal encourage ment already obtained, and further solicits the per ronage of those that have not yet availed themselve of his aid.

Persons that cannot conveniently call, by sending the glasses in use, and stating how many inches they can read this print with their spectacles, can be supplied with such that will improve their sight.

Circulars to be had gratis, at his office, No. 512, Seventh street, three doors from Odd-Fellows' Hall.

Innumerable testimonials to be seen, and references given to many who have derived the greatest ease and comfort from his glasses."

Wilmikeron, N. C., June 16, 1854.

To persons who have have had the sight of their eyes so impaired as to require the use of Glasses, I would recommend Mr. John Tobias as a suitable person from whom to obtain such Glasses as they may require, as he has suited me with a pair of Spectacles for a far and near sight. My sight has been impaired very much by a service of years in the Post Office Department, which berth required me to be on duty from 11 o'clock at night tilk after day, during which time I used but one light.

W. A. WALKER.

W. A. WALKER. BROOKLYN ORTHOPARDIC INSTITUTION,

After most careful examination of Mr. J. Tobias's Glasses, I am enabled to testify that their hardness, clearness, polishing, and exact optical shape, render them particularly recommendable to those whose merely optical impairment of the eyes are in want of such auxiliaries. I consider, moreover, Mr. Tobias fully qualified to determine the focus of the eye, both by his optical knowledge and experience, and by means of his optometer. In addition, I can further state that Mr. Tobias has supplied some of my patients with Glasses, to their and my satisfaction.

Copy of a testimonial which appeared in the Daily merican Organ, May 21, 1855, from Judge V. Ellis

(late editor:)

"Having suffered for many years past with weakness of the eyes, and that defect of vision which results from a toe constant and intense use of these sensitive organs, we were led to make a trial of Tobias's new and improved discovery for the eyes, whose name heads this article. We saw them recommended by sundry gentlemen of Virginia, whom we know, and therefore had less hesitation in making the experiment. We are more than pleased with the article. We read with less fatigue with these lens than any we had ever tried before; and we see more distinctly with them. Wethout meaning to disparage the claims of others, who have made improvements in Spectacle Lins, we deem it but just to make the above statement. Mr. Tobias resides on Seventh street, opposite the National Intelligencer office."

Lyncanure, November 7, 1854.

From an examination of Mr. Tobias's Glasses, and from his observations and remarks, am convinced that he is a skilful optician.

J. J. BLACKFORD, M. D.

Norfolk, Va., July 27, 1854.

In the experience of even two years, I have found great difficulty in obtaining Spectacles that were exactly adapted to the weakness of my sight. This inconvenience Mr. Tobias seems to have removed for the present by the substitution for me of better and more suitable Glasses. They are clear, chrystal-like, and comfortable to my eyes. I would commend him to those who, from age or other infirmity, require artificial aid in this way.

J. J. SIMKINS, M. D.

Sir.: The pair of Spectacles you furnished me yesterday are particularly satisfactory to me. They are very decidedly the best I possess, and I am the owner of eight or nine pairs, carefully selected in different places, and from opticians recommended to me on account of their professional standing in France, England, and the United States. I have been also pleased with your remarks and directions on the treatment of the eyes, for the purpose of preserving and improving the sight.

Respectfully yours, CHS, CALDWELL, Professor of M. C., Louisville, Ky

Washington, August 8, 1855.

Having been for years under the necessity of having two sets of glasses—one for use in the daylight, and one for lamplight—I procured one set from Mr. Tobias, which answered both purposes. I have used his for several months, and find them excellent.

EDWARD STUBES,

Of Department of State.

PETERSBURG, October 21, 1854.
About five years ago, I obtained from Mr. Tobias, in Washington, a pair of Glasses for the Spectacles which I used, and found them of great assistance to my decaying vision; and my opinion of him is, that he is skillul in the preparation of Glasses for eyes not too far gone to be benefited by such aid.

Platform of the American Party, adopted at the session of the National Council, February 21st, 1856. 1st. An humble acknowledgment to the Su-

reme Being, for His protecting care vouchsafed to our fathers in their successful Revolutionary struggle, and hitherto manifested to us, their descendants, in the preservation of the liberties, the independence, and the union of these States.

2d. The perpetuation of the Federal Union, as the palladium of our civil and religious liberties, and the only sure bulwark of American Independence.

3d. Americans must rule America, and to this end, native-born citizens should be selected for all State, Federal, and municipal offices or government employment, in preference to all others: nevertheless,

theless,

4th. Persons born of American parents residing temporarily abroad, should be entitled to all the rights of native-born citizens; but 5th. No person should be selected for political station, (whether of native or foreign birth.) who recognises any allegiance or obligation of any description to any foreign prince, potentate or power, or who refuses to recognise the Federal and State constitutions (each within its sphere) as paramount to all other laws, as rules of political action.

6th. The unqualified recognition and maintenance of the reserved rights of the several States, and the cultivation of harmony and fraternal good will, between the citizens of the several States, and to this end, non-interference by Congress with

to this end, non-interference by Congress with questions appertaining solely to the individual States, and non-intervention by each State with the affairs of any other State.

7th. The recognition of the right of the nativ born and naturalized citizens of the United States, permanently residing in any Territory thereof, to frame their constitution and laws, and to regulate their domestic and social affairs in their own mode, subject only to the provisions of the Federal Contion for one Representative in Congress. Provided always, that none but those who are citizens of the United States, under the constitution and laws thereof, and who have a fixed residence in any such Territory, ought to participate in the formaion of the constitution, or in the enactment of laws for said Territory or State.

8th. An enforcement of the principle that no State or Territory ough to admit others than citizens of the United States to the right of suffrage,

or of holding political office.

9th. A change in the laws of naturalization, making a continued residence of twenty-one years, of all not hereinbefore provided for, an indispensable requisite for citizenship hereafter, and excluding all paupers, and persons convicted of crime, from landng upon our shores; but no interference with the sted rights of foreigners.

10th. Opposition to any union between Church nd State; no interference with religious faith, or worship, and no test oaths for office. 11th. Free and thorough investigation into any and all alleged abuses of public functionaries, and a strict economy in public expenditures.

12th. The maintenance and enforce laws constitutionally enacted, until said laws shall be repealed, or shall be declared null and void by competent judicial authority:

13th. Opposition to the reckless and unwise policy of the present administration in the general nanagement of our national affairs, and more es-secially as shown in removing "Americans" (by designation) and conservatives in principle, from office, and placing foreigners and ultraists in their places; as shown in a truckling subserviency to the stronger, and an insolent and cowardly bravado towards the weaker powers; as shown in re-opening sectional agitation, by the repeal of the Missouri Compromise; as shown in granting to un-naturalized foreigners the right of suffrage in Kan-sas and Nebraska; as shown in its vacillating course in the corruptions which pervade some of the de-partments of the government; as shown in dis-gracing meritorious naval officers through preju-dice or caprice; and as shown in the blundering

mismanagement of our foreign relations.

14th. Therefore, to remedy existing evils, and prevent the disastrous consequences otherwise resulting therefrom, we would build up the "American party" upon the principles hereinbefore stated.

15th. That each State Council shall have authority to the council shall be considered as a council shall be considered as a council shall have authority to the council shall be considered as a rity to amend their several constitutions, so as to abolish the several degrees, and institute a pledge of honor, instead of other obligations for fellowthip and admi sion into the party.

16th. A free and open di rinciples embraced in our platform.

THE GREATEST DISCOVERY OF THE AGE!

THE GREATEST DISCOVERY

OF THE AGE!

WOOD'S

HAIR RESTORATIVE.

THIS Astonishing and Unequaled preparation, turns hair back to its original color, after having become gray, and reinstates it in all its original health, lustre, softness, and beauty; removes at once dandruff from the scalp, and all unpleasant itching, as well as all outaneous cruptions, such as Scald heads, &c., and hence creates a perfectly healthy state of the scalp, by acting as a stimulant and tonic to the organs necessary to supply coloring matter to the hair, and completely restores them to their original vigor and strength, and thus prevents all tendency to become gray. It also prevents the hair from becoming unhealthy, and falling off, and brings it out where it is gone by resuscitating the organs necessary to supply nutriment, health, and coloring matter to it, and hence acts as a perfect Hair Invigorator and Tonic.

Charlestown, Mass., Ang. 9, 1856.

Gentlemen: Nothing but a duty and sympathy that I feel to communicate to others who are afflicted as I have been would induce me to give this public acknowledgment of the benefit I have received from Prof. Wood's Hair Restorative. When I first commenced using it, my hair was quite gray, and in spots entirely bald. I have now used the Restorative about five months, and my hair is entirely changed to its original color, browh, and the new hair is over three inches in length on the spots where it was bald. I have also been much gratified at the healthy moisture and vigor of the hair, which before was dry, and it has ceased to come out as formerly.

Respectfully, yours, &c.,

Mrs. R. A. STODDARD.

WATERFORD, 1854.

Prof. O. J. Wood: With confidence can I recommend your Hair Restorative as being the most efficacious article I ever saw. I have used the Wahpene and many o'her preparations of the day, all to no effect. Since using your Hair Restorative, my hair and whisters, which were almost white, have gradually grown dark, and I now feel confident that a few more applications will restore them t

more applications will restore them to their nature color. It also has relieved me of all dandruff and unpleasant itching, so common among persons who perspire freely.

PERRY DAVIS'S PAIN KILLER.

THIS apparalleled preparation is receiving more testimonials of its wonderful efficacy in removing pains, than any other medicine ever offered to the public.

And these testimonials came from persons of every degree of intelligence, and every rank of life. Phylicians of the first respectability, and perfectly conversant with the nature of diseases and remedies have recommended this as one of the most effectual in their line of preparations for the extinction of pain.

This may certify that I have used Perry Davis's Vegetable Pain Killer with great success in cases of Cholera Infantum, Common Bowel Complaint, Bronchius, Coughs, Colds, &c., and would cheerfully recommend it as a family medicine.

JAMES C. BOOMER, Pastor of the Baptist Church.

This may certify, that I have used Perry Davis's Vegetable Pain Killer in numerous cases, and believe it to be a very valuable medicins. I have prescribed it extensively in Bowel Complaint, (particularly for children,) and it is, in my opinion, superior to any preparation I have ever used, for the rehef of those diseases. When given to children, I have always combined it with the syrup of gum arabic, say ten drops to a tea-spoonful on the syrup, well mixed. Others have mixed it with milk and molasses, equal parts.

See I does it a delta I me to the specific and the syrup of the syrup, well mixed.

Sin: I deem it a duty I owe to society, especial to the afflicted, to offer this testimonial in favor that estimable medicine—"Perry Davis's Party

that estimable medicine—"Perry Davis's Pain Killer."

When passing through Galena, some two weeks ago, I purchased at your agency, a 25 cent bottle. I was then suffering from a severely bruised hand. I applied it in the store, and was astounded at the almost instantaneous relief. Before I left the store, the inflapmation was removed, and in less than an hour, the pain ceased. In two days my hand was well as ever. Finding it to be really a remedy, I determined to try its effects as a curative for the Pilea, to which I had been a martry for years. After five dressings, my piles were amongst the things that had been. I am now entirely free from them, and in as good health as ever I was in my life.

I have recommended the Pain Killer to others similarly afflicted, and slways with good effect.

Several of the captains of the upper river boats carry with them a constant supply, and consider it one of the most valuable medicines ever discovered. I am, dear sir, respectfully yours, JOSEPH O. MARTIN,

The New York Commercial Advertiser thus al-ludes to the beneficial effect already produced by the nomination of Mr. Fillmore upon the action of

the "Republican" party:

It is well understood that when Mr. Fillmoniast heard from, March 21, he had not reconside advice of his nomination. In a let that date to Mr. Haven, he remarked, after regretting the necessity for so early a nomination and that the choice had not fallen upon another "I am fully prepared for any sacrifice which it may be necessary to make, and any responsibility it may be necessary to take." The words are worthy of Millard Fillmore, and are like him. He

The nomination of Mr. Fillmore by the American party, and the general adoption of his cause by the Whigs while still retaining their separate organization, has already, beyond controversy, proved a wholesome check to the ultra-sectional spirit that was abroad prior to his nomination. The Republican party at that day had no idea of nominating such a conservative candidate as Justice McLean, or a man so utterly without political antecedents as Colonel Fremont. Not only have their tactics undergone an entire change with reference to a Presidential candidate, but their views of the one question on which they profess to stand, have been greatly modified; so modified, in fact, so far as publicly avowed, that the sole issue now contended for by their organs is, that Kansas shall be admitted as a free State. Again and again do the Republican organs and the Republican leaders assure the country that this is the only issue they intend to fight upon. On this they found their appeals to all men to drop their former political associates, be they Whigs, Democrats, or Know-Nothings, and unite with them. The ground taken is, that the Re-

of Kaness as a free State.

All other plants of their platform are to be thrown away, and only this retained. The men who were essentially the anti-Slavery party, we might say the Abolition party, who openly declared that they would not confine themselves to opposing the extension of slavery, (for that had been a Whig doctrine, and, if they meant no more, it was most impolitic to break up the Whig organization,) but demand its destruction; who wowed that there should be no peace to the country until the Misdemand its destruction; who vowed that there should be no peace to the country until the Missouri Compromise was restored; who abused without stint all men, and especially those Whigs, who would not subscribe to these hereaise, and who opened vials of unmeasured denunciation upon the remant of the Whigs, if they but dared to hint at giving the'r votes to an American or Democratic candidate for any office. These very men have abandoned those lesues and openly proclaim their readiness to co-operate with (nay, invite their aid) either of the parties named, or any other. They acknowledge, in fact, that, as a party, they are in a powerless minority, and that their only hope of success is in political amalgamation, and are casting about with but noor success for cardidates who

a powerless minority, and that their only hope of success is in political amalgamation, and are casting about with but poor success for candidates who shall be an illustration of such amalgamation.

We have not the alightest doubt that the homination of Mr. Fillmore has done much toward compelling the Republican party to this change of issue and of position. The appeal to the cohservatism and sobriety of the people, the calm confidence with which that appeal was made, the response that it met with, even though it had the taint of Know-Nothingism upon it, the deliberate purpose evinced by the old line Whigs of this State, and by many in other States, to aid in securing his election, the promptness with which the nationality of the people felt and responded to the nomination—these warned the agitators and disturbers of the Union, and sectional men generally, that notwithstanding the means taken to establish sectional and geographical lines, and to keep up a perpetual conflict between the free and alays States, the sober sense and ahe inherent patriotism of the American people will ever revolt from participation in any attempt to elevate a candidate standing on such a platform to the chief magistracy of the Union. Now that the sole point of dispute between the Republicans and the country is this single measure of the admission of Kansas as a free State—a measure that time itself will accomplish—we have a strong hope that the people of the United States will turn giadly to a man for President, who brings to the office such qualifications as Millard Fillmare.

Douglas's Gift to the Baptist Church.

Prom the Chicago Democrat, April 20.

Douglas's Gift to the Baptist Church.

"Douglas is laying pipe in all directions. He has donated ten acres of land to the Baptist church of Chicago. The land is valued at fifty thousand dollars. In a few weeks we expect to hear that he has been carrying around the plate at a camp meeting."—Bugialo Commercial Advertiser.

Douglas will carry a plate at a camp meeting before he gives \$50,000 worth of property to any one. Douglas has about seventy acres of land, worth, as it now stands, on an average, two thousand dollars per acre. He offers to give ten acres of it to any person or corporation that shall build upon the same such a building as he describes, costing at least one hundred thousand dollars. Title to be made on completion of the building. The balance of the land not occupied by the building to be a public park forever. This would enable him to sell lots for residences about the park, and thereby make the remaining sixty acres worth near half a million of dollars, whilst the whole seventy is worth now only one hundred and forty thousand dollars. Offers and liberalities of this kind are frequent among land holders at the West. Mr. Douglas has had this offer standing for near one year. It is now revived for political capital, and has not been accepted by the Eaptists or any other denomination, and the conditions are so accept that we think it will be unless essentially medified. Its acceptance would be a grand speculation for Judge Douglas, a much better one than the epeal of the Missouri Compromise.

THE NE PLUS ULTRA.—Dr. C. M. Jackson would seem really to have attained the highest point of convenience, beauty, and style in mercantile architecture, in his new warehouse and office for the sale of the celebrated Hoofland's German Bitters, 96 Arch street, below Fifth. This splendid building, whose exterior has for menths attracted the admiration of all who passed, by the originality and delicacy of its ornamentation, and the harmony and grace of its proportions, was opened on the 10th March to a company of the Doctor's friends and acquaintances, who enjoyed themselves "right inertilie" on the occasion.—Philadelphia Times.
